

# AML SECURITY, LLC

## The QUOTE

AML security is a licensed, insured, and bonded business and will offer both armed and unarmed guards, based on client needs and budgets. All guards will be certified for security work and to carry firearms.

Whenever possible, the same guards will be sent consistently to the same clients. However, substitutes will be necessary from time to time and the business will ensure that detailed data about the job is transmitted to substitute guards on those occasions. AML will build trust with clients as a partner, rather than simply in the specific guard or guards they grow comfortable with.

Guards will keep in constant communication with their team via portable two-way radios and with the AML office, as necessary through mobile phones. Guards will either be stationed at desks or patrol on foot at all facilities. Clients must provide vehicles if their jobs require vehicle patrol (i.e., a facility with several buildings), but this will not be a focus of AML Security LLC.

**The prices are based on hourly services, for our officers and the event or the establishment for the use of security services. We are here for you, and we can adjust prices according to the client's immediate need, we want your business, try AML Security, LLC today.**
